

INDIAN SCHOOL KHASAB

Circular to the Parents of classes VI to VIII

CODING WORKSHOP

Ref No-CR/10/2025-26

July 28, 2025

Dear Parents,

Greetings from Indian School Khasab!

In today's fast-changing world, **coding** has emerged as a vital 21st-century skill that goes far beyond computer programming. It enhances logical thinking, creativity, and problem-solving—skills that are essential for success in all fields. Coding serves as the backbone of **Artificial Intelligence (AI)**, a technology that is revolutionizing our daily lives—from autonomous vehicles and virtual assistants to intelligent automated systems.

Introducing students to coding at an early age helps them understand how technology functions and prepares them for future careers in AI, robotics, app development, and more.

With this objective, the school is organizing a **Weekend Coding Workshop** for students of **Classes VI to VIII** under the guidance of an experienced resource person.

Details of the Workshop:

- **Topic:** Introduction to Coding
- **Resource Person:** Ms. Neethu M., Coding Expert
- **Day:** Fridays
- **Time:** 3:00 PM to 5:00 PM
- **Duration:** From **August 8 to September 5, 2025**

The workshop will provide students with hands-on experience in basic coding concepts and help develop skills in logical reasoning, sequencing, and computational thinking.

Parents are kindly requested to arrange transportation to pick and drop their children on time. Interested students are requested to submit their names to the class teacher by **August 3, 2025**. We encourage you to take advantage of this opportunity and support your child's journey into the exciting world of coding.

Warm Regards

Bindhu Saji
Principal
